

Opportunities to cooperate with the INCO-HEALTH operation

Enrica Ferrari

INCO-HEALTH operation coordination

Regione Lombardia

Sanità

**Inco
Health**

Regional cooperation

- ✓ The INCO-HEALTH operation is devoted to reinforce the trans-regional cooperation in the regional health and insurance cards domain by promoting the adoption and sharing of experience and setting-up joint developed policies aimed at facilitating the introduction of the HIC and EHIC through European Union.
- ✓ Regions belonging to EU and accession countries interested in gaining services and tools developed by the operation will have the possibility to join the INCO-HEALTH approach through the participation to dissemination and promotional events, on-site visits at the INCO-HEALTH antennas, direct contacts with antennas' operational managers.

Why to take part to INCO-HEALTH operation?

- ✓ To share experience with other EU Regions on HIC and EHIC strategies.
- ✓ To extend expertise gained in this domain to regions not experienced yet.
- ✓ To create an advanced group of regions in EU capable to drive the adoption and deployment of an HIC/EHIC strategy.
- ✓ To respond to the need to implement the 3-steps EU path on EHIC and e-EHIC cards.

Which benefits for participants?

- ✓ Understanding processes, practices and methods for launching and HIC/EHIC strategy in its own territory under the regulatory, operational and technological point of view.
- ✓ Improving HIC/EHIC management/implementation processes.
- ✓ Increasing awareness of policy makers and PA employees in responding to the citizens needs through Health Insurance Cards.
- ✓ Anticipating the need to implement the EHIC scheme in the regional/national HIC according to the EU framework.

Which benefits for participants?

- Participating public administrations/governmental bodies will directly benefit of:
 - Questionnaire for positioning their current strategy vs. best practices actually in use at EU level.
 - Operational manual identifying major items to be addressed for starting with an HIC/EHIC strategy.
 - Antennas services: consultancy services deployed by the INCO-HEALTH regional antennas for launching or improving HIC/EHIC strategies.
